

# Program Manager - products & packaging, Nr. Snede

Would you like to work for a global food company with strong, well-known and respected brands? Kelsen Group A/S is one of the largest producers of butter cookies in the world, and part of Campbell's Soup Company. Kelsen has HQ in Nr. Snede and is the regional hub for Campbell's in the EMEA region.

Kelsen's vision is "A Campbell's product in every home" and reflects that we are still a butter cookie producer with global presence but in addition we are also a trade hub for Campbell's product portfolio in Europe, Middle East and Africa. This dual mandate requires substantial focus from cross functional teams to deliver many new projects which are part of our strategic plan. To support and secure the delivery of these objectives we are looking for a Program Manager – products & packaging.

## Tasks and responsibilities

In the newly created role you will be reporting to the Senior Supply Chain Director and become part of a dynamic organisation. You will provide leadership to a product team (3 employees) and oversee all aspects of project management across the business to ensure successful delivery of key initiative projects on the strategic plan. You will lead the project development and management of all key milestones and the project timeline across the business to ensure on time in full delivery at optimised cost. You will work with the cross functional teams from initial scoping through the stage-gate process up to and including final reviews. Further you:

- Coordinate and manage the monthly innovation board meetings
- Ensure feasibility scoping to identify best supply solution with cross functional engagement
- Manage stakeholders and build a strong network across Campbell's global organisation

## Key Competencies

We would expect the successful candidate to possess the ability to work independently in a growth environment. You are a people leader with an impactful profile, good interpersonal skills and you are pro-active and motivated to grow yourself and your team. Further you have:

- Strong business acumen
- Ability to create new and cultivate existing relationships
- Interact positively at all organizational levels and in different cultural environments
- A dynamic and strong character with an open, trustworthy positive approach to the daily challenges

It is important that you have a solid track record within project management, working with cross functional teams delivering outcomes that have added value to the business. Preferably you have 8+ years in a senior product/project management role within R&D or Supply Chain including people management experience. You are used to communicate and engage all stakeholders across the broader business and different teams. A Bachelor degree is essential as well as excellent written and verbal communication skills in both English and Danish.

## We can offer

An exciting and challenging job in an international company with committed and dedicated colleagues. It is a fulltime job located in Nr. Snede. Salary and terms of employment will be based on your qualifications. Please send your application in English (named: 'Program Manager – products & packaging') to [rekruitering@kelsen.com](mailto:rekruitering@kelsen.com). Interviews will be an ongoing process, so send your application today.

If you have further questions to the position, please contact Senior Supply Chain Director Tony Jones on 72 110 195 or [tj@kelsen.com](mailto:tj@kelsen.com).

*Kelsen Group began life in 1933 as a small family bakery in the heart of Jutland, Denmark. Today Kelsen is a subsidiary of Campbell Soup Company, USA and in recent years, we have experienced a fast growth. Kelsen has the commercial responsibility for a large portfolio of products in the region Europe, Middle East and Africa. The production of our butter cookies takes place in our two modern bakeries in Denmark and includes production for the Asian and American markets. Kelsen has 400 employees in Denmark and we bake some 25,000 tons of cookies every year. Founded on the principle that good quality and great taste bring pleasure to consumers, we ensure that every cookie we bake meets our high quality standards.*
